[DIS]COVERIES.

AN equal and natural circulation of the blood is health. [illegible] to say an ex[cessive] or deficient circulation or stagnation of the blood is disease. To illustrate—torpidity of the Liver is caused by stagnation of the blood in that organ diseases of the Kidneys Inflammation of the Lungs Diseases of the Heart &c, by the same cause viz torpid circulation and from the same cause spring all minor forms of disease. To discover a certain cure then for these diseases the first great enquiry necessarily is What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men and while many experiments have been made and much labor ex[pended] upon the enquiry it has been left to this century among its other wonderful increase in knowledge, to make this grand discovery als[o].

Acknowledging that life is the gift of the Creator and that in Him we live and move and have our being, we still venture the remark that as the planets move in their spheres, and all vegetable life is governed by certain absolute laws, so animal life is traceable to a fixed cause which to remove or destroy and death the certain effect follows.

Analysis of the red corpuscles of the blood show them to be compounds of iron sulphur and phosphorus.

The air we breathe we know to contain a very large proportion of oxygen.

Oxygen brought in contact with a metal evolves or emits electricity.

Electricity brought in contact with a muscular fiber causes it to contract.

These facts being indisputable we have now the solution as to the motive or motive power of the heart. The oxygen in the air we breathe coming in contact with the iron corpuscles of the blood [e]mits electricity which coming in contact with the heart causes it to contract and hence the power which expels the blood and sends it through the [illegible] arteries. What then are the causes [of] Consumption, Dropsy, Palsy, Paralysis, St Vitus Dance Dyspepsia, Epilepsy Fever and Ague &c a deficiency of the red corpuscles containing both sulphur and phosphorus which [illegible] a deficiency of electricity and consequently an abnormal circulation. The blood becomes wa[t]ery colds and bronchial complaints and prostra[tion] [illegible] all nerves become nervous and sub[ject] to [illegible] neuralgia—complaints of the liver and kidneys etc in short almost every type of [illegible] intermittent fevers may be traced to the deficiency of the blood, of the corpuscle or red globule.

Old [illegible] causes a deficiency of corpuscles and while we do not pretend to say that we have discovered the elixir vitæ we do say that life can be materially prolonged by the use of the

"Blood Food,"

which restores the red globules and thus the nor[mal] [illegible] Consumptives! Friends of Con[sumptives]! Sufferers from any organic disease! Unfortunates, who [illegible] by excess the body or [illegible] reduced the strength of the blood and dimin[ished] the red globules [illegible] Ladies suffering any of the distresses known as female complaints be persuaded the "Blood Food" [illegible] has cured thous[ands] [illegible] desperate [illegible] hope has been given up. Do not reject [illegible] do not throw away your only hope. The Blood Food is [illegible]

[illegible] carrying out and fully pro[illegible] the theory advanced here to be correct will be [illegible] to any interested party on the receipt of two [postage] stamps. The Blood Food is [sold] by all drug[gists] [illegible] or where [illegible] I will send 6 bot[tles] [illegible] free of expense for $5. Price single bottle $1. It is put up in sizes [illegible] in yellow wrapper —the [illegible] kind in small bottles in red wrappers having been done away with—and bears the fac simile signature of Church & Dupont upon the face of the wrapper. PERUVIAN SYRUP,
OR PROTECTED
SOLUTION OF PROTOXIDE OF IRON COMBINED.

This well known Remedy has been used extensively and with great success for

DYSPEPSIA,
Or Impaired and Imperfect Digestion,
FOR THE CONSEQUENT
DETERIORATION OF THE BLOOD;
AND FOR THE FOLLOWING
FORMS OF DISEASE,
Most of which originate in
DYSPEPSIA

LIVER COMPLAINT, DROPSY, NEURALGIA and NERVOUS AFFECTIONS, LOSS OF APPETITE, HEADACHE, LANGUOR and DEPRESSION of SPIRITS, CARBUNCLES and BOILS PILES, SCURVY, AFFECTIONS OF THE SKIN, CONSUMPTIVE TENDENCIES, BRONCHITIS, DISEASES PECULIAR TO FEMALES, & ALL COMPLAINTS ACCOMPANIED BY GENERAL DEBILITY,
AND REQUIRING
A TONIC AND ALTERATIVE MEDICINE.

Note.—The failure of IRON as a remedy for *Dyspepsia*, a bad state of the blood, and the numerous diseases caused thereby, has arisen from the want of such a preparation of Iron as will enter the stomach in a Protoxide state, and assimilate at once with the blood. This want the PERUVIAN SYRUP supplies, and it does so in the only form in which it is possible for Iron to enter the circulation. For this reason the PERUVIAN SYRUP often radically cures diseases in which other preparations of Iron and other medicines have been found to be of no avail.

Certificate of A. A. HAYES, M. D., of Boston.
It is well known that the medicinal effects of Protoxide of Iron are lost by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron without further oxidation has been deemed impossible.

In the PERUVIAN SYRUP this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN, and this solution may replace all the proto-carbonates, citrates and tartrates of the Materia Medica.

Greatest Improvement of the Age
The Good Samaritan!
VENTILATED OVEN,
COOKING STOVE!

We are sole AGENTS for BANGOR and vicinity for the celebrated Cooking Stove

GOOD SAMARITAN.

THIS STOVE was patented by Messrs Rathbone & Co., of Albany, July 19, 1859, and although but little more than a year has expired since it was first operated, its many wonderful feats in cooking have already placed it far in advance of any other Stove which has as yet been offered to a discriminating public. We claim for the Good Samaritan that its economy of fuel, its simplicity of arrangement and real practical utility of the conveniences which surround it have placed it far in advance of any stove yet offered to the world. We will name a few of the advantages which it possesses over any other stove as well as some of the conveniences which attend it

1 It has greater weight of castings, the bare stove weighing from 400 to 450 pounds

2 Greater capacity for cooking. It has a very large Oven and also conveniences for baking on the top of the stove. It has also a large front roaster for baking bread, pies &c., or roasting meat and this without danger of contaminating with the same taste the finest delicacies being baked in the oven of the stove, an advantage which no other stove using the roaster possesses

3 Its perfect control of heat. The Good Samaritan has a treble draught arrangement which enables the operator to use as little or great a fire as he pleases. The advantage which this arrangement gives over any other economist of fuel is that while a fire may be started in the coal stove in from one third to one half less time, the operator can after his fire is once started lessen the draught as much as he pleases even to closing it entirely—thus giving him perfect control of the heat

4 It has a soapstone fire-back, which will never burn out, and consequently will not need replacing. Soapstone is used very extensively as a lining to coal stoves, as it is well established that nothing else will stand the effect of intense heat for so great a length of time

5 Its accommodations for broiling are perfect and unequalled. It has a splendid arrangement for broiling on the hearth giving a perfect draught through the door and around the gridiron into the flues of the stove keeping the coals alive and carrying off all smoke and gases arising from the food—It will also broil very nicely upon the top with out the smoke entering the room. This is accomplished by closing the draught, and can only be effected by a perfectly air tight stove

6 Its arrangement for the ventilation of the oven cannot be excelled. It is effected by holes in the front top of the stove, through which the fresh air passes, the hot air against the front plate of the fire chamber (the [illegible] entering the oven [illegible] through the ventilator [illegible] into the oven. [illegible] the stove when [illegible] all gases arising from the food which will naturally rise to the top [illegible] over the front oven plate behind the fire [illegible] the fire [illegible] they are [illegible] a [illegible] and I also [illegible] the stove

7 The Good Samaritan has [illegible] considered it the [illegible] most economical [illegible] the [illegible] in the world [illegible] greatly [illegible] the [illegible] saving of fuel [illegible] from its [illegible] to the highly placed [illegible] None who [illegible] a little coal and [illegible] a use [illegible] but that with ordinary [illegible] must [illegible] from [illegible] They can [illegible] the [illegible] of the [illegible] and [illegible] the fuel consumed [illegible] the longer a [illegible] wear

That it possesses all the attributes and qualities of a perfect stove in the highest point of perfection is no longer an experiment but an established fact that it has no equal we are fully prepared to demonstrate to all impartial persons and [illegible] all whether wishing to purchase or not to call and see [illegible] be convinced of the truth of the statement

While every housekeeper in Penobscot county [illegible] we think they will be fully repaid by examining the merits of this wonder of the age

American & Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS.

Late Agent of U. S. Patent Office Washington under the Act of 1837

76 State Street, opposite Kilby Street,
BOSTON

AFTER an extensive practice of upwards of twenty years continues to secure Patents in the United States also in Great Britain France and other foreign countries. Caveats Specification Bonds Assignments and all Papers or Drawings for Patents executed on liberal terms and with despatch. Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England but through it inventors have advantages for securing Patents of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works and full accounts of patents granted in the United States and Europe, render him able beyond question to offer superior facilities for obtaining Patents.

All necessity of a journey to Washington to procure a patent and the usual great delay there are here saved inventors

TESTIMONIALS

It has become our imperative duty to urge upon the public attention the fact—that over 40,000 of our fellow citizens in Kansas are now in imminent danger of starving. We have the evidence from all sources—from Gen Pomeroy, Chairman of the Territorial Relief Committee, from the columns of nearly every newspaper there of all shades of political [opinion]—from our own reliable agent who has just returned. There was no doubt of the misery [illegible] terrible [illegible] destructive.

We have evidence that whole families have already died of starvation and that thousands more must die from disease [illegible] want and disease unless [illegible] promptly and through relief is at once applied. Mr Lincoln's youthful Patriotism

The Springfield Republican quotes from a speech delivered by Mr Lincoln at that place, nearly a quarter of a century ago, at a time when he little dreamed of the future which awaited him. It is remarkable under the present circumstances. At that time Mr Lincoln said —

"Many free countries have lost their liberty and ours may lose hers, but if she shall, be it my proudest plume not that I was last to desert, but that I never deserted her. I know that the great Volcano at Washington, aroused and directed by the evil spirit that reigns there is belching forth the lava of political corruption in a current broad and deep which is sweeping with frightful velocity over the whole length and breadth of the land, bidding fair to leave unscathed no green spot or living thing, while on its bosom are riding like demons on the waves of Hell the imps of that evil spirit and fiendishly taunting all those who dare to resist its destroying course, with the hopelessness of their efforts, and knowing this, I cannot deny that all may be swept away.

Broken by it I too may be; bow to it I never will. The possibility that we may fail in the struggle ought not to deter us from the support of a cause which we believe to be just. It shall not deter me. If ever I feel the soul within me elevate and expand to those dimensions not wholly unworthy of its Almighty Architect, it is when I contemplate the cause of my country deserted by all the world beside, and I standing up boldly and alone and hurling defiance at her victorious oppressors.

Here without contemplating consequences before Heaven and in the face of the world I swear eternal fidelity to the just cause, as I deem it, of the land of my life, my liberty, and my love. And who that thinks with me will not fondly adopt [illegible] that I [illegible] [illegible] [illegible] we [illegible]

Pope—Yes [illegible]

Myself—I [illegible] with my whole heart on Lord and Master Jesus Christ. I believe in his divinity [illegible] sacrifice [illegible] and [illegible] serve Him. Will you [illegible] acknowledge me a Christian?

Pope—For a Christian Miss certainly. But—

Myself—Not a member of the church of Christ?

Pope—Yes—[illegible] in some [illegible] but—[illegible] then [illegible] everything the church [illegible] [illegible] the [illegible] the Pope [illegible] acknowledge the infallibility of the Catholic Church [illegible] many persons of other creeds may be saved, by living according to the truth which they acknowledge [illegible] certainty.

Myself—It is a great [illegible] to hear this from your Holiness. Because I have cherished the hope of having in your Holiness a more righteous judge, as regards the question than in many other Catholics who say [illegible] a Christian, we cannot be saved [illegible] in all respects believe as we [illegible] Church do

Pope—In this [illegible] are wrong. But you see my daughter people should [illegible] account of their Christian belief, not belief alone in general but belief in the separate parts of a doctrine. It is already something to believe in the second person of the Godhead and in his incarnation but it is necessary also to believe in the institution which he has founded on earth, otherwise, there can be, in reality, no faith in him. And people must believe in the Pope. The Pope is Christ's representative on earth.

GENTLE GIRLS.—We extract from the Philadelphia Bulletin the following article well expressed upon the ever-lovely sweet topic for the perusal of our more gentle readers and concur with the writer that there is nothing "half so sweet in life" half so beautiful, half so delightful or loveable upon this mundane sphere as a genuine, good and gentle girl. Not a pretty, lisping or elegant girl, but a nice, tidy girl, one of those lovely, lively, good-hearted, sweet-faced, amiable, neat, natty, domestic, obedient, unselfish creatures met within the home circle, diffusing around the fireside, the influence of her goodness, like the perfume of some modest flower just newly blown.

"A nice girl is not the languishing beauty, drawling on a sofa, and discussing the last novel or opera, nor the giraffe-like creature sweeping majestically through a drawing room. The nice girl may not even [illegible] or play well, and knows nothing about using her eyes or coquetting with a fan. She never languishes she's too active. At the opera she is not in front, showing her bare shoulders, but sits quiet and unobtrusive—at the back of the box, most likely. In fact, it is not often in such scenes that we discover her. Home is her place.

Who rises betimes, and superintends the morning meals? Who makes the toast, and the tea, and buttons the boy's shirts, and waters the flowers, and feeds the chickens, and brightens up the parlor and the sitting room? Is it the languisher, or the giraffe, or the *elegant*? Not a bit of it, it is the nice girl.

Her unaided toilet is made in the shortest possible time, yet how charmingly it is done, and how elegant her neat dress and plain collar!—What hearty kisses she distributes among the family! no presenting of cheek or brow, like the 'fine girl,' but an audible smack, which says

BANGOR DAILY WHIG AND COURIER.

plainly, 'I love you ever so much If we covet anything, it is one of the nice girl's kisses.

Breakfast over down into the kitchen to see about dinner, and all day long she is up and doing, and always cheerful and light hearted — She never ceases to be active and useful until the day is gone, when she will polka with the boys and sing old songs, and play old tunes to her father for hours together

The Mobile *Advertiser* says "During the past year 135 430 muskets have been quietly transferred from the northern arsenal at Springfield alone, to those in the southern States We are much obliged to Secretary Floyd for the foresight he has thus displayed in disarming the North and *equipping the South for this emergency* There is no telling the quantity of arms and ammunition which were sent South from other northern arsenals. There is no doubt but that every man in the South who can carry a gun can now be supplied from public or private sources The Springfield contribution alone would arm all the militiamen of Alabama and Mississippi

The House of Representatives last week passed the following resolution introduced by Mr Sherman of Ohio —

Resolved [illegible] the people [illegible] State [illegible] upon or interfere with slavery [illegible] State of the Union

It was adopted [illegible] vote—yeas 161 [illegible]

And still we are told the Southerners were mad about [illegible] — [illegible] insulting We don't know why they should say that—for have not the leaders all along told the Southern people that the Black Republicans meant to [illegible] Slavery [illegible] States just as soon as they got into power [illegible] *and so on every* [illegible] —and so it isn't surprising that they should be mad with the Republicans to [illegible] men for [illegible] such an ethical [illegible] —

[illegible] given at a dinner in Philadelphia [illegible] by [illegible] Buchanan Member of Congress [illegible] her well known [illegible] that with [illegible] belongs to [illegible] character [illegible] in maintaining the Federal Constitution against *the novel and [illegible] nullification* [illegible] by which [illegible]

If the proposed nullification [illegible] of Congress involved thirty years [illegible] such a novel and dangerous doctrine in the opinion of Mr Buchanan as a representative of Pennsylvania what shall be thought [illegible] craven submission [illegible] Union to be broken [illegible] the present [illegible] would [illegible] been [illegible] consider [illegible] more [illegible] the goading of [illegible] sharp [illegible] pointed at his back

How far Mr Buchanan's course [illegible] of 1830 may have operated or how much or how little it may have been needed [illegible] important Certain it is, that in February 1831 the Pennsylvania House of Representatives by a vote of 87 yeas to 3 nays passed the following resolution affirming the necessity of preserving the Union of the States against all attempts at nullification—

Resolved As the sense of the House of Representatives of this Commonwealth, that the Constitution of the United States having proved itself by near half a century's experience a government beyond all others capable of promoting national liberty and general welfare, a Union of sovereign States, constructed by one and the same sovereign people it must be preserved inviolate against all attempts to nullify impair or reduce it to a mere confederation

Our great Constitutional expounder DANIEL WEBSTER once said—"While other nations are moulding their systems of government into free forms let us not break the pattern Pennsylvania surely, is not the State by taking any steps backward, to aid in such a disruption

It is estimated that of the four hundred and forty southern officers in the army fully four hundred will remain in the service let what will take place. Even adding to the list of regular resignations in the line the West Point cadets who left to save themselves the mortification of being cashiered, the total number of political malcontents would be under fifty

Montreal has increased fifty per cent in population in [illegible] years. It is now 90,000

The President elect came near being squeezed to death at Buffalo, in consequence of the deficient arrangements made for his reception A great crowd had been allowed to await the arrival of the train in the depot, so that but a narrow passage could be kept open by the few soldiers and policemen detailed to protect the President He had hardly left his car and, after shaking hands with Mr Fillmore made a few steps towards the door when the crowd made a rush and overpowering the guard pressed upon him and party with a perfect furore A scene of the wildest confusion ensued To and fro the ruffians swayed, and soon cries of distress were heard on all sides The pressure was so great that it is really a wonder that many were not crushed and trampled to death As it was Major Hunter of the President's escort, alone suffered bodily injury by having his arm dislocated The President elect was safely got out of the depot only by the most desperate efforts of those immediately around him His party had to struggle with might and main for their lives fighting their way to the open air

THE GREATEST TALKERS ON RECORD Some of our night compositors who set up the telegraphic news, (a proof of which the editor is necessarily unable to see) have recently stated that the progress of Mr Provisional President Davis towards his Southern capital, and that of our Constitutional President Lincoln towards Washington were each of them one continued *oration* Davis did to be sure make twenty five or thirty speeches on the route—and Lincoln has talked just as much as the occasion required — but even Davis didn't talk *all* the time The reader of course understands that "ovation" was the word written

The Union in magnifying the power and resources of the [illegible] States over the six New England States compares the official valuation of the two sections—putting the [illegible] at $1,338 000 000 and the latter at $1 [illegible] 000 000 In the Southern estimate it includes [illegible] two millions of negroes worth at least $[illegible]00 000 000 Suppose we put in *our* laboring [illegible] at what they are worth to the country How would the valuation then compare

RECEPTION TO MR HAMLIN AT WORCESTER — Mr Hamlin on his arrival at Worcester was greeted by one [illegible] hundred [illegible] whose demonstration of respect and esteem were so hearty and long continued that he was forced to make his appearance on the platform of the car and speak a few words He said [illegible]

Men of Massachusetts Your generous [illegible] speak truly the heart of this ancient Commonwealth [illegible] are the [illegible] representatives of [illegible] an intelligent productive [illegible] of our hearts [illegible] ancient time of the Old Bay State I know you are sometimes charged with [illegible] too far [illegible] (Cheers and laughter) I [illegible] have no apology to offer for you (Good) I sympathise with it too deeply (Laughter [illegible]) cheers [illegible] principles of the Old Bay State and all will be well Liberty was rocked in the cradle [illegible] Massachusetts [illegible] its old age and see that it receives no blow and [illegible]

The character [illegible] St Louis on [illegible] may be inferred from the [illegible] letter of inquiry J O Broadhead [illegible] as follows

Since I [illegible] known anything [illegible] I have never entertained any other sentiment than that [illegible] *of these States and the Constitution* [illegible] which [illegible] the result of the wisdom and patriotism of those who framed it [illegible] have never been willing to look forward to any contingency which would justify the disruption of the one or resistance to the authority of the other

An officer of the army, writing from Texas, says, that the best way to bring that State speedily back to the Union is to withdraw the United States troops from it There would be no security for private property or the lives of the citizens, save in the dangerous portion of the Texan domain, were Uncle Sam's men removed

Dispatches to the N Y Times say Mr Buchanan will veto every measure of Congress looking to the coercion of the seceded States

There is talk that Mr Etheridge of Tennessee will be Secretary of the Navy Mr Cameron, Secretary of the Treasury Mr Colfax Postmaster General The New England place lies between Gen Ashmun and C F Adams

WONDERFUL ESCAPE Upon the Vermont Central Railroad on Thursday last a passenger car was thrown from the track dragged five or six rods, thrown down an embankment turning over twice and literally dashed to pieces There was a dozen passengers in the car and yet the only injury received was the breaking the arm of one man and the cutting of the cheek of another

Drs W H Allen, of Orono H Rich of Bangor, I C Weston, of Bangor, R K Cushing of Brewer and S B Morison, of Bangor Standing Committee

After the transaction of other necessary business several cases of deep interest were reported and discussed

The meeting was well attended and was an occasion of interest and profit to all present A zeal for the interests of the Association was manifested, which augurs well for its future prosperity and usefulness

The discussion of the subject assigned was referred to the next meeting, which will be held at the same place at 2 P M of the first Wednesday of May next

R K JONES, Secretary

☞ There will be a lecture this evening before the Temperance Association at the City Hall at 7½ o clock, by Rev Mr Gilman Let there be a full attendance

Supreme Judicial Court Criminal Term

JUDGE KENT PRESIDING

February 19

State vs Thaddeus M Bolter alias Charles Clark Bangor Larceny of frockcoat vest and pantaloons of Wm H Norwood, from the dwelling house of Florinda Fuo Verdict guilty

C Atty, C S Crosby Knowlt[illegible]

State vs Thomas A C [illegible] of Bangor Larceny of money from one Wm H Wright in November last Plea, Misnomer—true name *Foul* and went to the jury on that issue — Verdict for deft, and he was discharged The prisoner was arrested in the night to answer to his true name Prisoner says now his true name is *Foward*

As Judge Kent had been summoned to Augusta to meet the full Court and determine upon the questions submitted by the Legislature in regard to the constitutionality of the Personal Liberty Law, he adjourned the Court until next Tuesday at 10 o clock

HONEST GIRLS AND A LUCKY MAN Yesterday morning Mr J H Bowler of this city dropped a roll of bills containing $400 on Kenduskeag Bridge Two young ladies Miss Ruth J Wiley and Miss [illegible] found it and took the [illegible] to the owner It was fortunate for him that it [illegible] good hands

☞ The friends of Rev I Cr[illegible] and Rev W I Jewell will meet at the residence of [illegible] Helmershausen at Hampden Lower Corner on Thursday evening next, for the purpose of Donation

☞ The Union tells the following story without giving the names of the parties injured

On Saturday while a party of seven persons belonging in Orneville were hunting in the woods the gun carried by the hindermost party was accidentally discharged The men were walking in single file and the bullet cut off the tip of a finger of the first person then it passed through the leg of the second just below the knee and through the leg of the third above the knee fracturing the bones in both instances

☞ At the recent city election in Biddeford the vote for Mayor, was for E H Banks (Republican) 477 Goodwin (dem) 301, others 102 Majority for Banks over all 71

Some of our friends in the logging woods had rather a hard time of it during the [illegible] [illegible] So severe was it that it broke off the limbs and branches from the trees in a continual shower, and made it dangerous for man or beast to be out Many teams were hauled up most of the day on this account —*Machias Union*

☞ Mr Caleb H Watson at Saco recently had all the fingers of his right hand cut off in a shingle machine

☞ A Mercantile Library Association was established a year ago at Machias At the first Annual Meeting, held Feb 2, Frederick A Hill was chosen President and Henry Galbeon Vice President

☞ The Houlton Times states that a 'Merchant's ball' tendered to Mr H R Streeter, on Thursday evening, was largely attended

FIRST ARRIVAL The sch Zina, Capt Bradbury arrived from Machiasport on the 15th inst, being the first arrival in 1861 The ice was clear from the channel of the river on the 16th —*Machias Union*

☞ At Houlton the mercury was 28 below zero on the cold Friday

☞ Brig Roamer, of Castine, from Mayport, Fla, which has been ashore near Nayat Point since the 6th inst., was got off at high water on Friday night, without damage, after taking off deck load of lumber She was towed to Providence on Saturday afternoon

☞ Capt. Josiah P Kellar, accompanied by his wife and daughter, left East Machias on Wednesday last for San Francisco, Cal.—*Machias Union*

☞ In Portland on Saturday evening, at the Elm House, a candle was left in a bed room by one of the domestics, and burning down, set fire to the table cloth, some papers, and finally to the bed The flames were extinguished without much difficulty.

SUPPOSED WRECK. Under our [illegible]

☞ We understand that when the Western train arrived last evening a man's cap was found on the cow catcher of the engine, and it is feared some person has been killed It is stated that an Irishman was seen on the track in the evening in an intoxicated condition

☞ The New England House, in Belfast was considerably damaged by fire on Tuesday evening last It caught from a defect in the chimney and a large portion of the roof of the main house was destroyed as we learn from the "Progressive Age

☞ AN ELECTION FOR POSTMASTER A public meeting has been called at Skowhegan to be held to day to nominate a candidate for Postmaster of the town to be recommended for appointment The Clarion does not say that it is to be a meeting of Republicans simply but we presume that is the case

☞ Harper's Weekly has cut deeply into the special department of the National Police Gazette, by publishing numerous portraits of great rogues Its last batch was headed by Jeff Davis and Ex Gov Brown of Mississippi Its next group will be headed by Slidell and Benjamin —*Bath Times*

It is said that the country will have $100,000,000 worth of food to spare for exportation the surplus of the last year's harvest The wheat crop is set down at 180 000 000 bushels and the corn crop at 900,000,000

A TOUGH BOY The Machias Union says that Joseph Coyle of that place a lad of thirteen drove a horse team 36 miles, facing the wind the entire distance, on the cold Friday — Some of the natives on the route tried to dissuade him from proceeding but he declared he didn't feel the cold and kept on his way

INSTANT SYEO [illegible] from Life in the Nineteenth Century By Maria Louisa Charlesworth New York R Carter & Brother 1861

For sale by E F Duren

This is a story of domestic life among the substantial farmers of England It is well written and the narrative is one of interest although not of the sensation style which marks a large class of the works of the day In fact, while the incidents are such as to enlist attention and please the general reader the story is of a religious cast and designed to illustrate by the example of an individual life the power of vital Christianity

THE CHILDREN'S PICTURE BOOK New York Harper & Brothers 1861

For sale by Bughee & Co

A beautiful book for children Printed in large clear and handsome type, upon tinted paper and illustrated by eighty nice engravings it tells the most interesting of the Bible stories in simple language, and in a manner to interest the youthful mind The book contains 300 pages small quarto and is bound in an attractive style

It is said that Rarey has contracted to give fifty horse lectures and exhibitions for $40 000 Who would not be a horse tamer

A man froze his fingers at Dubuque the other day and his wife undertook to thaw them out by rubbing them in a mixture of *snow and oil* They instantly became stiff in an instant [illegible] became [illegible] and he now stands a fair chance of losing them by amputation

FORT KEARNEY, 20th

The reported raising of the Palmetto flag was at the old fort, not at the present new one, under the command of Col. Miles. He, with his men, are devoted to the Stars and Stripes, and sooner than see them hauled down, they will each and every man die before the flagstaff.

RICHMOND, 20th

A large number of resolutions on Federal Relations were offered in the Convention to-day — They generally express attachment to the Union and a desire for an equitable settlement, but denounce coercion Others declare that a union of the South is necessary to the safety of the South, each State should speedily resume the powers delegated to the Federal government

A resolution was tabled proposing to raise a committee to inquire whether any movement of arms or men had been made by the General Government to any fort or arsenal bordering on Virginia, indicating preparation for attack or coercion

A resolution for a convention of the Border States at Wytheville, on the last Thursday in March, was referred

A resolution calling upon the Virginia Commissioners to the Peace Conference at Washington to agree to any settlement acceptable to Virginia, was tabled

Mr Clemmens, in a speech, denied that he had franked incendiary matter to free negroes and others in Va He pronounced the franks forgeries.

The committee reported that all but sixteen Counties had been heard from, and the majority for a reference to the people was 52,875

Mr Crittenden will soon be invited to address the people here on national questions, by a large number of prominent men

A resolution was offered in the Convention, that any attempt to coerce the seceded States will be forcibly resisted by Va Referred

A similar resolution was offered in the Senate, and ordered to be printed

The Michigan resolutions were sent back without comment

FAYETTEVILLE, Ark, 20th

The official vote of Washington County shows a Union majority of 1,400 Prominent secessionists are generally conceding that the State has gone largely against secession

Fort Smith, Benton, Washington, Sebastian and Crawford Counties elect Union delegates to the Convention by over 4,000 majority The majority against holding a Convention was about the same

An extra overland coach from Sherman, Texas reports the seizure at Fort Chadbourne, by Texans, of the coach with the mail overdue here The property of the company, within reach, was all seized The agents, and other employees are said to have been imprisoned

The Disunionists' Convention in Maryland

BALTIMORE, 19th

The Conference Convention adopted a series of resolutions in favor of calling a State Convention, and in view of understanding whether Gov Hicks was disposed to call a Convention in the event of a failure in the Peace Conference and Congress, to effect satisfactory adjustment —the Convention to adjourn till the 12th of March, also, to oppose coercion

The Southern Confederacy

NEW YORK, 20th

Letters and dispatches to the Herald, from Montgomery, state that as soon as the Davis cabinet is announced, three commissioners will be sent to Washington empowered to treat on all subjects.

A treasury bill will be passed empowering the Secretary to accept cotton for bonds, estimated at 200,000 bales, to be subject to his order when the bill becomes a law.

They talk of having twenty or thirty war steamers ready by the middle of March.

Latest by the Mails!

FROM THE SOUTH Col Sumpter, formerly a member of Congress from South Carolina, writes to a friend in Washington that Fort Sumter will be taken, at whatever cost of life, before 4th of March, or immediately after In the Charleston correspondence of the Columbia 'South Carolinian,' we get additional information of the preparations to attack the Fort

"Cummin's Point battery (Fort Stevens) has at last been finished It is covered on the outside with railroad iron, and is almost as impregnable as Fort Sumter Three large mortars, bearing on the latter fort are mounted in it, and three sixty four pounders bearing in the same direction Anderson's largest guns are pointed against this battery, but our soldiery have very little terror of them This fort is on Morris Island, within 5-8 of a mile of Sumter Fort Morris, half a mile further off has also several heavy guns mounted A few twenty-four pounders are mounted on Fort Johnson, but these are not expected to do much destruction The greatest reliance is placed on the mortars—three of the largest size being mounted in it By-the by, I hear it hinted that these bombs will be filled with cayenne pepper and other smothering combustibles

Outside of Fort Moultrie, on Sullivan's Island, are two mortar batteries—seven being mounted in one and four in the other The two forts have been strengthened by sand-bags, these latter having been bound together by iron bars The 'floating battery' is almost completed It is expected that it will be ready for use during this or next week It is thirty feet in height—contains an upper and lower deck The breastwork in front forms an angle of about twenty degrees with the horizon, and will be covered with railroad iron Four cannon—sixty four pounders —will be placed upon each deck, and a company or companies of artillery and infantry will man it I hear from good authority that it will be brought close under the beleaguered fortress, and it is hoped the Major (Anderson) will open fire"

MARYLAND We take the following paragraphs from a recent Baltimore letter

"The news from the counties against secession in any form, and against a Convention continue to pour in upon us The resolutions are gradually becoming stiffer in favor of holding on to the Constitution, without change, and the rebels are catching the fire of denunciation with more directness than hitherto

Day before yesterday the secession polls were opened at Havre de Grace No judges appeared and no voters, save three disunionists, who soon disappeared in shame

The President elect's speeches have done more to open people's eyes in this quarter to the iniquity of the slaveholders' rebellion, than all that has been said since it began Oh, how the compromisers curse him to-day This is a sure indication that he is THE lion in the pathway of the traitors

Despatch to the N Y Evening Post

WASHINGTON, Feb'y 18 The President's friends assert, apparently by authority, that he will veto any bills providing for the coercion of the seceding States, or for placing the militia forces of the several States at the disposal of the Executive Mr Buchanan, however, will approve the bill providing for the construction of seven steam sloops-of war

It is also confidently asserted that the Pacific Railroad bill will be vetoed if it passes with provisions for the building of three separate roads

Mr Benton, (Republican,) of New York, has prepared a resolution, which he intends to offer in the House, recommending the calling of a Constitutional Convention to adjust the sectional differences This important tender from the Republican side is likely to be adopted, the proposed measure of relief being regarded as the only feasible solution of the pending troubles

The Democrats in Congress object to the re-enactment of the Jackson Force bill on the ground that it contains an unconstitutional clause requiring that it shall be executed regardless of anything in the laws of the United States to the contrary John Cochrane will offer, as a substitute, a bill vacating the ports of the seceding States as ports of entry This measure, it is supposed will produce the desired effect

Correspondence of N Y Times

Dispatches from the Montgomery Convention urge the Border State men in the Peace Congress to consent to no compromise

The district troops will be under orders Thursday, Friday and Saturday

Several letters have been received by Southern men from Boston shipowners inquiring about the probability of Southern privateers in case of hostilities

Cor of N Y Tribune

Mr Brown, the late editor of the "Constitution," has been deputized to inform the Federal Government of the election of Mr Davis. He will not be recognized

The recent proceedings in Montgomery has led the border States to talk of a separate confederacy in case they secede

The Republicans in both Houses are ready to vote unanimously in favor of a national Convention

Correspondence of N Y World

A letter from the former Congressman of So Carolina says that Fort Sumter will be taken, at whatever cost of life, before the 4th of March, and that South Carolina will demand a guarantee for free trade in the Montgomery Congress, and that the other cotton States will oppose any tariff on imports, higher than 6¼ per cent

Tuesday, Feb 19

Read and assigned—bill to incorporate the Bangor and Piscataquis Railroad Company

Mr Vaughan from the Committee on Division of Counties, reported leave to withdraw on the petition of Timothy Fuller et al for incorporation of a new county out of the northern part of Penobscot county Accepted

Mr Jason presented petitions of J L Hersey et al, D Whiting et al, and H S Crommett et al, that the system of scaling logs on Penobscot river be full scale Referred to Committee on State Lands and State Roads.

Mr Blunt presented remonstrance of Samuel Woodman and 112 others, legal voters of Cornville, against removal of seat of government to Portland or elsewhere

HOUSE

Read and assigned—An act to incorporate the town of Washburn (Salmon Brook Plantation), to reduce the capital stock of the Traders Bank at Bangor

Passed to be engrossed—An act for the assessment of a State tax of $258,554 88, an act to incorporate the Piscataquis Railroad Company

On motion of Mr Brown of Hampden,

Ordered, That the Judiciary Committee be instructed to inquire whether legislation is necessary to prevent the allowance of constructive pay by Courts, and to report a statement of facts thereon.

On motion of Mr Whitney of Thorndike,

Ordered, That the Land Agent be requested to furnish the Legislature with a statement, showing the quantity of State land sold during the twenty years, with the date of each sale, the price paid per acre, the date of payment, the amount still due, and the nature of the security, (if any) thereupon; and also, [illegible] demands for lands, [illegible] Land Office, and in the hands of attorneys for collection, with the name of the parties against whom such demands stand, [illegible]

reserved lands, particularly dates and amounts

Mr Libbey of Orono asked and obtained leave to present a bill to incorporate the Orono Educational Association, and on his motion the same was referred to Committee on education

There are signs of returning reason in some of the seceded States Judge Marvin of Key West writes thus in the Tallahassee Floridian

But what ought the South to do in the present state of things? I do not know My mind is clear *as to what it ought not to do It ought not to get out from under the protection of the present Constitution of the United States until she can get under the protection of a better one*—one too, that shall bind the North as thoroughly as this does to keep the peace—and it ought not to disobey the laws. *The frying pan is as comfortable a place as the fire*, and it may be better to endure the evils we have than to fly to others that we know not of. But can we stay in the Union where our rights are denied, without dishonor Perhaps South Carolina cannot, for she threatened to go out on the election of Lincoln, and if she did not do it her people would think themselves dishonored

But what are our rights? Have we agreed upon what they are? One is to have our negro property protected by acts of Congress, in the Territories Is not this a new demand? How long is it since the whole South voted that Congress had no right to legislate on the subject of slavery in the Territories? But we say the right is certain under the Constitution, and the North denies it It is then a disputed claim — Now it appears to me that *there is no dishonor in letting it remain in dispute until there is some territory opened or acquired* which the South may wish to settle with negroes

THE TRAGEDY OF LEONIDAS PROMISED AGAIN A German soldier in Fort Sumter writes as follows to his friend at the North—

FORT SUMTER, Feb 7

I expect we shall have an attack before my letter reaches you We all think we shall be able to stand it for about ten days! *They cannot take the Fort by assault unless they wish to sacrifice from three to four thousand lives* — It is impossible they should enter the fort, and they cannot come near enough to make a breach Suffice it to say that we are all in excellent spirits and of good courage, and full of confidence in our commander and officers *We are ready to a man to show the world that the tragedy of Leonidas can be re-enacted by United States troops* Let the dogs come, we will receive them as they deserve, and destroy them and their rebellion with one blow What if seventy United States troops should whip a whole State

Mr Lincoln at New York.

The President elect was received at New York yesterday, at 10 o'clock—Mayor Wood making an address, closing as follows

In you therefore, chosen under the forms of the Constitution as the head of the Confederacy, we look for the restoration of fraternal relations between the States, only to be accomplished by peaceful and conciliatory means, aided by Almighty God

Mr Lincoln, in his reply, said

In my devotion to the Union, I hope I am not behind any man There is nothing which could bring me to consent willingly to the destruction of that Union under which not alone the great commercial city of New York but the whole country has acquired greatness, unless it should be that for which the Union itself was made.

As I understand it, the ship is made for the carriage and preservation of the cargo, and it should never be abandoned We should never cease in our efforts to save it so long as it can be done without throwing overboard the passengers and cargo—so long as the prosperity of this people can be preserved in the Union, it will be my purpose and shall be my effort at all times to preserve that Union

The rush of people at the reception of President Lincoln was immense and unprecedented

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:
Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1859.
J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,
ALFRED B. TALLEY.

Ayer's Cherry Pectoral

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities or even families among them who have not some personal experience of its effects — some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

Ayer's Cathartic Pills.

HORSE BRUSHES and [illegible] for sale by B. F. BRADBURY.

Ayer's Sarsaparilla.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of mothers, her

SOOTHING SYRUP,

FOR CHILDREN TEETHING,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

Relief and Health to your Infants.

We have put up and sold this article for over ten years, and CAN SAY, IN CONFIDENCE AND TRUTH of it, what we have never been able to say of any other medicine—NEVER HAS IT FAILED IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of commendation of its magical effects and medical virtues. We speak in this matter "WHAT WE DO KNOW," after ten years' experience, AND PLEDGE OUR REPUTATION FOR THE FULFILLMENT OF WHAT WE HERE DECLARE. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILLFUL NURSES in New England, and has been used with NEVER FAILING SUCCESS in

THOUSANDS OF CASES

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

Griping in the Bowels, and Wind Colic,

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD, in all cases of DYSENTERY and DIARRHŒA IN CHILDREN, whether it arises from teething or any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your prejudices, or the prejudices of others*, stand between you and your suffering child, and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the facsimile of CURTIS & PERKINS, New York, is on the outside wrapper.

☞ Sold by Druggists throughout the world.

Principal Office 13 Cedar street, New York.
Price only 25 cents per bottle.

Science Confounded

AND THE

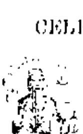
WORLD ASTOUNDED!

BY THE

Great Cures

Made by DR. NORCROSS'

CELEBRATED REMEDIES!



Thousands who have been laid low by disease will attest to their healing powers. By the use of them they have been restored to health and vigor and their gratitude is unbounded. O could the world be wise—throw aside the poisonous or deleterious medicines they now use, which serve to reduce their physical strength, and bring on weakness and debility, and numerous other troubles—and take the long sought for medicines, which operate upon the whole system like a charm, and which are emphatically, as every one who ever used them will testify—
A sovereign balm for every wound,
A cordial for our fears.
O for once be wise—no longer delay. Delays are dangerous, and while you are taking the poisonous drugs, the disease may have so far progressed as to make it too late for hope. Now is the time to buy and try my medicines, and again to enjoy the blessings of health. Try them—and you will never have cause to repent of it.

Dr. A. L. Norcross' Medicines.

Sugar Coated Vegetable Bilious Pills.

In bringing this Medicine before the public I have no desire to extol its medical properties above what it merits. I have used them in my practice for the last twenty years, and have ever found them to be a sure remedy in expelling disease from the system. Thousands who have used them would willingly attest to their healing qualities. Therefore I have no hesitation in warranting them to be the best Cathartic now before the public. These Pills have more than a single claim on the public, for the following reasons: They are purely vegetable. They cause no pain or griping, although they are certain in their operation, and are perfectly harmless for male or female in any condition, for they do not weaken, but strengthen the whole system, by exciting every organ to a healthy action. They are, also, a sure remedy for all diseases that arise from impurities of the blood—such as Inflammation of the Liver, Kidneys, Bowels, Spleen, Bladder, Rheumatism, Bowel Complaints, Jaundice, Headache, Loss of Appetite, Languor, Debility, and last of all, warranted a sure cure for Dyspepsia, in all its forms, if they are taken as directed. Numerous certificates might be had testifying to their good properties, but I prefer to let them stand on their own merits. *Single box 25 cts—5 boxes $1.*

JAUNDICE ELIXIR

To purify, cleanse, and strengthen the Blood, and cause a healthy action of the Liver. Good in all cases of Debility. Warranted a sure cure for Jaundice. *Price 50 cents.*

GERMAN PILE SALVE

This Salve is a safe and sure cure for this most distressing, and in many cases, dangerous disorder, which has baffled the skill of the most eminent physicians of this country. It is prepared wholly of vegetable and animal substances, and can be used with perfect safety in all cases. Those afflicted with this most troublesome of disorders will here find that relief which has been denied them from other sources. One box will generally cure the most confirmed case. Numerous certificates might be had from those who have used it and obtained relief, proving its value and efficacy. *Price 50 cents per box.*

CROTON LINIMENT.

For Chronic and Rheumatic Complaints.—This Liniment is a sure remedy for Headache, Sprains, Bruises, Burns, Scalds, Spinal Affections, Palsy, Chilblains, &c. Let the rheumatic, halt, lame and palsied try and examine its qualities, and they will not be disappointed. Years of study and investigation have enabled the proprietor of the Croton Liniment to furnish a remedy extraordinary in its power over disease, no matter of how long standing. *Price 50 cents.*

Prepared only by the subscriber, at his Laboratory, at Brown's Corner, Vassalboro', Maine, to whom all orders must be directed. ☞ None genuine but those purchased of me or my agents.

PROF. WOOD'S

[illegible]

AND

BLOOD RENOVATOR,

Is precisely what its name indicates, for while pleasant to the taste it is revivifying, exhilarating and strengthening to the vital powers—it also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilarating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those combined having powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science and also by all who have suffered by debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous diseases to which poor humanity is constantly liable. Such, for example, as the following: Consumption, bronchitis, indigestion, dyspepsia, loss of appetite, faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy, hypochondria, night sweats, langour, giddiness, and all that class of cases so fearfully fatal if unattended to in time, called *female weaknesses and irregularities*. Also, liver derangement or torpidity, and liver complaints, diseases of the kidneys, scalding or incontinence of the urine, or any general derangement of the urinary organs, pain in the back, side and between the shoulders, predisposition to slight colds, hacking and continued cough, emaciation, difficulty of breathing, and indeed we might enumerate many more still, but we have space only to say it will not only cure the debility following chills and fever, but prevent all attacks arising from Miasmatic influences, and cure the diseases at once, if already attacked. And as it acts directly and persistently upon the biliary system, arousing the liver to action, promoting in fact all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water, hence all travelers should have a bottle with them, and all should take a tablespoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits—students, ministers, literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then again the cordial is a perfect mother's relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it, this cordial is all we claim for it. Mothers, try it!* And to you we appeal to detect the illness or decline, not only of your daughters, before it be too late, but also your sons and husbands, for while the former, from false delicacy, often go down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you, they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal, for we are sure your never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need. O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market Street, St. Louis, Mo., and sold by all good Druggists.

You Look in Vain

For a Grey Hair on the Head of a person who uses

HEIMSTREET'S INIMITABLE

HAIR RESTORATIVE.

You will find however on the heads of those who use it

LUXURIANT GLOSSY HAIR
OF ORIGINAL COLOR,
AND A CLEAN SCALP,
NO MATTER AT WHAT AGE OF LIFE IT IS USED.

THE FOLLOWING TESTIMONY IS CONVINCING.

MACON, Ga., March 23, 1860.
Messrs. *Stewart & Butler*, Savannah, Ga.
Gents—I received the package of Heimstreet's Inimitable Hair Restorative, and after using one bottle, can safely say it is the best article of the kind I know of—it will do all it claims to do, in restoring the hair to its *original* color. Respectfully,
JONAS F. BEESLEY.

Office Home Mutual Fire and Marine Insurance Co.
St. Louis, October 29, 1859.
We have used Heimstreet's Hair Preparation, (Inimitable Restorative,) and find it to answer the purposes for which it is designed, better than any thing we have ever used before, and can recommend it in the highest terms.
P. B. HENRY,
C. L. CHESTER,
G. V. CROSS.

SAVANNAH, Ga., May 17, 1860.
Messrs. W. E. HAGAN & CO., Troy, N. Y.
Gents—Our firm having sold large quantities of your INIMITABLE HAIR RESTORATIVE, and hearing it so universally commended by many of our patrons in the highest manner as to its INVALUABLE qualities, I was induced to give it a trial, having for some years been troubled with falling of the hair, dryness of the scalp, as well as the additional annoyance of many grey hairs,—the scalp being apparently diseased. After faithfully using one small bottle of the Restorative, and finding its good qualities apparent, I commenced the use of the second, and my hair is now in better condition than ever before during my recollection. It has stopped falling out, and the scalp has resumed its functions.—I most cheerfully recommend your article as having all the virtues you claim for it. In addition to my own case, *I can point out at least fifty persons in our city who have had the same experience in its use as myself.* You are at liberty to use this letter as you may see proper, and I will be happy to recommend your article personally on any and all occasions.
Yours respectfully, JAMES STEWART, Of the firm of Stewart & Butler.

"Rejoice! ye with grey hairs and bald heads, for the *Inimitable* will restore the former to its original beauty, and cover the latter with a luxuriant growth."—*Troy Budget.*

"If you wish to have the *natural* color, instead of the dull, rough look which hair dye imparts, use *Heimstreet's Restorative*, which invigorates the *roots* of the hair and makes it young again, no matter how much it may be faded."—*Boston Traveller.*

THE ONLY PREPARATION

THAT HAS

Stood the Test of Years,

And grows more and more popular every day!

AND testimonials, new, and almost without number, might be given from ladies and gentlemen in all grades of society, whose united testimony none could resist, that Prof. Wood's Hair Restorative will restore the bald and gray, and preserve the hair of the youth to old age, in all its youthful beauty.

BATTLE CREEK, Mich., Dec. 21, 1858.
Prof. Wood—Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative, about the first of August last. I have faithfully followed the directions and the bald spot is now covered with hair thick and black, though short. It is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the widow and the fatherless."
Thy friend, SUSANNAH KIRBY.

LIGONIER, Noble Co., Indiana, Feb. 5, 1859.
Prof. O. J. Wood—Dear Sir: In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair, from a cause unknown to me, commenced falling off very rapidly, so that in the short space of 6 months, the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that, upon my return to the State of Indiana, my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were to recognize me at all.
I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time, I have used seven dollars worth of your Restorative, and as a result have a rich coat of very soft black hair, which no money can buy.
As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who, I am happy to inform you, are using it with like effect.
Very respectfully yours, A. M. LATTA, Attorney and Counsellor at Law.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small. The small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for three dollars per bottle.
